

## Adventure Curriculum Vitaé

Pedro has been actively working for Climbing South America for the last 5 years and the last 3 years has been learning the ropes of mountaineering. In the last 3 years Pedro has been on most of the 6,000 m peaks in Bolivia under the supervision of Jeff Sandifort while guiding clients. He has recently passed a mountain guiding course, in flying colours from the Mountain Guide Association of El Alto, La Paz to gain his certification of Aspiring Guide.

Pedro is full of energy and is always laughing. There to lend a hand when you need it, clients love their trips with him. Pedro will be one of the strongest Bolivian climbers, and will be one of the leading guides here in the future.
